

ABOUT THE BOOK

In the 21st Century information technology continues to be a critical benefactor of intelligent paradigms for machine intelligence through applications of AI and soft computing continue to re-define the design problem in multimedia, image processing, biomedicine, financial engineering and soft computing in industry. This volume of TSI Press Series on Intelligent Automation and Soft Computing constitutes a report on the research papers presented for the Soft Computing (ISSCI 2004) track of the Sixth Biannual World Automation Congress (WAC 2004) in Seville, Spain from June 28- July 1, 2004.

ABOUT THE EDITORS

M. Jamshidi (WAC 2004 Chair) is Regents Professor of Electrical Engineering, AT&T Professor of Manufacturing Engineering and Director of Autonomous Control Engineering (ACE) Center, The University of New Mexico, USA

M. Reuter (ISSCI 2004 Chair) is Professor of Computer Science, CUTEC Institute GmbH and TU-Clausthal, Clausthal Germany, and the Chairman of the Modeling and Simulation Department of the CUTEC Institute, Germany.

D. Andina (IWAC 2004 Organizing Chair) is Professor of Electrical Engineering, Polytechnic University of Madrid, Spain.

J. Jamshidi is President of TSI Enterprises, Inc., a 24+ year S Corporation specializing in publishing, CD ROM production and meeting organization
